Acquisition of ISO certification by Uniden Vietnam Ltd.

Uniden Vietnam Ltd., a 100% subsidiary of Uniden Corporation has acquired International standard for quality management system ISO9001:2000, together with its start of full volume production of cordless telephones.

1. Background

Uniden is already in the advanced stages of a fundamental restructuring of its manufacturing organization in order to improve profitability in the face of volatile markets. As a result of such activities we have recently completed preparations to manufacture all cordless phones in Vietnam - production which up to now has been split between China and Vietnam. At the same time we have established the Quality Management System and acquired ISO9001:2000 certification which is a recognized global standard for quality management system.

2. Acquisition

Acquisition date:	December 16, 2008
Acquired standard:	ISO9001 : 2000
Manufacturing item:	Cordless telephones
Object factory:	Uniden Vietnam Ltd.
Established:	April 4, 2007
Employees:	About 5,500
Location:	Lot 5. 1, Tan Troung Industrial Zone, Cam Giang District, Hai Duong Province, Vietnam

3. Future prospects

Uniden group will continue to strengthen its product competitiveness in the market vis-a-vis quality and cost performance by attaining stable operation of efficient production, reinforced by the establishment of the Quality Management System in Uniden Vietnam.
